

Adult Summer Reading Log

“Trip to the Moon”

June 3 - August 3

Adams Memorial Library

- ★ It's approximately 240,000 miles from the Earth to the Moon. We will be reading "a mile a minute" to try to reach the Moon this summer—240,000 minutes in all!
- ★ Track your hours of reading on this sheet. Each Star Level equals 300 miles/minutes (**5 hours**) of reading. For each Star Level you reach, you will receive one raffle ticket towards the grand prize drawing. Cross off your stars as you go!
- ★ Whenever you visit the library, report your hours so we can add your time to our cumulative total. Each time the Library reaches its own Star Levels (at 30,000 miles/minutes or **500 hours**) we will pull one name from the raffle pool for a special milestone prize—you will get a star named after you!
- ★ Your star will be registered with www.star-registration.com. You will receive a certificate, star map showing your star's location, and a Swarovski star-shaped crystal as a memento of the theme. *Please note, this is not a government-authorized website and bears no legal rights to the star—it's just for fun.*
- ★ There will also be weekly games, introduced each Monday. If you miss a week you can ask for the previous week's game, but you cannot work ahead to next week's game. Turn in a completed game to earn a bonus raffle ticket. One bonus raffle ticket per person per week.

Grand Prize Awards

(one per drawing)

- ★ \$100 Walmart Gift Card
- ★ \$100 Amazon.com Gift Card
